

SQL

Subqueries in
FROM and
SELECT clauses

SQL: Subqueries in FROM and SELECT

```
Select A1, A2, ..., An  
From R1, R2, ..., Rm  
Where condition
```

Expressions involving
“subqueries”: nested
select statements

Demo: simple college admissions database

College(cName, state, enrollment)

Student(sID, sName, GPA, sizeHS)

Apply(sID, cName, major, decision)
